
Illusioneer by Carlos Vaquera - Buch

"I found the book absolutely fascinating.....This one was a delight. Chock full of cool card and coin effects....some of the card tricks were inspired by the works of Edward Victor, Jack Carpenter, Dan and Dave Buck, Larry Jennings..tons of really clever ideas with an unique twist on many of them. I encourage you to get the book JUST for the essays ALONE. He has essays on finding a mentor, craftsmanship of magic verses art of magic, music; and my favorites were 8 tenets of magic, and the one on stage freight." -Shawn Farouhar (FISM World Champion)
