
Tumi Magic presents Glitch Card (Red) by Tumi Magic

The creative mind of Erick White was at work innovating a Wayne Houchin classic.

He worked hard to come up with this new method, including the possibility of being tested after the pips come to life...and then transforming it into a 7 of diamonds.

Handmade one by one and original bicycle cards were used.

Do you have questions?

Can it be done live?

Yes, you do not need to be an expert to use it in the real world, a presentation surrounded by people 60 cm away and the gimmick will be invisible.

Is the trick thick?

No, it feels like a card, it's smooth and easy to handle.

Is the cheat ready to use out of the box?

Absolutely! At first glance you will know how to use it, but we suggest you watch the explanatory video first.

Does it include extra parts?

Yes, we add materials for its reconstruction and we teach you how to do it step by step.

If you have any questions that you want to ask me before or after buying it, write to DM [ilusionista.erickwhite](#) to answer you as soon as possible.

It is an incredible piece and you will not regret having it in your repertoire!
