
SMOGLER (White) by CIGMA Magic

After numerous tests and constant refining, we have finally released **Smogger L**. We are excited to bring you the most handy and versatile smoke device with the best quality for real-life magic workers.

Its teeny tiny bit of volume makes it highly adaptable to a variety of performing environments, imperceptible to the audience, and comfortable for use. There is a wide range of possibilities for its settings: wristbands, card mats, shirt collars, you name it. Your imagination is the limit!
