
Split (DVD and Gimmicks) by EVM - DVD

Everyone loves money and it is without a doubt one of the most common objects in the world. It is also one of the hardest items to counterfeit. For that reason, it makes magic using money much more impossible for your audience.

Imagine splitting a bill little by little. A \$10 bill into two \$5 bills. Even take a step further, biting off a coin from the \$5 dollar bill. This is **Split**.

Note: This comes with a gimmick package that allows you to customize to any currency you choose.
