
Itoshito (DVD) by Zee - DVD

Our friend Zee took the coin magic community by storm with the release of *Project Z* and *How to do Coin Magic*.

Many respected names raved about his modern touch on classic moves. Zee definitely sets a new bar for visual coin magic, and **Itoshito**, is the next chapter in his advanced visual coin work.

This project consists of Zee's bread and butter when it comes to routines that he performs professionally day in and day out.

If visual insanity with a few coins in your pocket is what you are looking for, then you don't want to miss **Itoshito**. Check it out.

What you will learn:

- Shrimp
- Chem Class
