
Eugene Burger: From Beyond by Lawrence Hass and Eugene Burger - Buch

New from Theory and Art of Magic Press:

In 2010, Eugene Burger asked Larry Hass to write and oversee two books that would share all of his unpublished material - books that would appear only after his death.

EUGENE BURGER: FROM BEYOND is the first of these two extraordinary books. It includes:

- Complete details of over **15 parlor, stage, and spirit theater routines** that Eugene had intentionally held back, including his legendary SPIRIT SLATES and the first-ever complete revelation of his work on the GYPSY THREAD.
- Access to 13 video performances of these routines and 2 audio performances.
- Rarely seen photos, essays, interviews, public talks, and scripts.

EUGENE BURGER: FROM BEYOND is a treasure trove of astonishing secrets from one of the most celebrated magicians of our time.

Hardcover, 240 pages with color insert.
