
Flavoured by Gustavo Sereno and Gee Magic

Visual effects always astound spectators. **Flavoured** gives you the ability to change a pack of Halls into another color and flavor as many times as you want, with an unexpected ending! With these gimmicks, you will be able to perform magic having a visual impact! And, because the magic happens in your spectator's hands, it's a doubly surprising effect that you can carry in your pocket.

- Gimmicks are 100% ready to use
- Surprising ending
- Super visual effect
