
Paperstorm Red (DVD and Gimmicks) by Rich Li - DVD

It's no news that our friend, Rich Li, is a beast at sleight-of-hand card magic, rivaling many other modern card performers.

Here at SansMinds, we've assembled a few of our favorite sleight-of-hand effects from Rich, into a project we promise you'll enjoy. Each effect contains its own mystery between just a stack of pasteboards.

SKRT Change is Rich's display version of the classic Dr. Daly's Last Trick. Two cards visually change, and all your spectator has to do is sit tight and enjoy the impossible visual.

Dash is a visual mystery that happens in the blink of an eye, as you throw a card right through, and into, the middle of the deck.

Gourmet Production allows you to instantly produce 4 cards, one by one. Perfect as a standalone production, or opener to a card routine. Rich also includes a version that allows you to visually vanish the quartet with just a wave of the hand.

Finally, **Elixir Change** is a printing card effect like no other. You visually print your spectator's thought-of card onto a blank card, one side at a time.

Being honest, all of these can be challenging to learn, and they're not for the faint of heart. But if you love visual sleight-of-hand card magic, mastering these will be so rewarding to add to your repertoire and show off at a moment's notice.

What you receive:

- 1 package of gimmicks (RED or BLUE option available)
- 1 instructional DVD

TV right not included. Please contact SansMinds for TV rights.
