
Pro Series: Swordlace Black (DVD and Gimmick) by SansMinds Creative Lab - DVD

Swordlace is a classic card effect that has stood the test of time.

Not only is the effect strong and direct, but having the cards spring up into the air and shower to the ground as the effect happens psychologically signifies the finale and wraps the entire performance.

It's a beautiful plot used by many of the greatest in our business. The only problem is, who uses a sword anymore?

Here at the SansMinds Creative Lab in collaboration with Guillermo Dech and Yuji Enei, we have taken all the elements of **Swordlace**, and reinvented it to our taste. The result? Check this out.
