## **Bill It (DVD and Gimmick) by SansMinds Creative Lab - DVD**

What's real magic like to you? We believe that real magic should feel spontaneous and totally catch people off guard.

What better way is there to combine these visions, but with an element that speaks to everyone across language barriers? Money!

Imagine having the Midas Touch, and turning something into a bank note, right at your fingertips; like real magic.

It's a spontaneous effect that guarantees to catch people off guard, and instantly grab their attention.

And let me share the best part with you. It ends absolutely clean. Once it becomes money, it stays money. With no switch whatsoever, you can hand it over to people right away.

No flaps, no thread, and no magnets. **Bill It** is so clever that you won't be able to keep yourself from smirking when you perform it.

It's super practical, and feels like what someone with a real magic power would do.

So what are you waiting for? Let's cash it in with **Bill It**.
