
Mimic (DVD and Gimmick) by SansMinds Creative Lab - DVD

Who says a visual puzzle can't be an amazing trick? **Mimic** is a visual card effect that can be performed beyond language barriers.

The premise is simple. Tear any pips off any card, restructure its molecules, and visually turn that little corner into a full-size card that you desire, IN YOUR SPECTATOR'S HAND.

It's visual, it's illogical, and it fools people so bad, it makes them cry for help!

Mimic comes with a professionally manufactured gimmick that will last you a lifetime. Fool them now, worldwide.
