SLIDER V2 by Victor Voitko

A new system for the appearance/disappearance and the visible flight of various objects (such as cards, coins, bills, spoons, forks and much more...)

Some effects:

- 1. A spectator signs a coin. The coin then moves from one hand to the other in three different ways. In the final move, the coin slides across the magician's chest, from one side to another!
- 2. A spoon visibly moves across your chest from one hand to other hand.
- 3. A fork or knife disappears in your hands and etc....

For stage magic, for restaurant magic, close-up magic and much more...

This set includes:

- 1 Slider system
- 1 new holder for Slider system
- 2 jumbo coins for routines
- 1 magnetic jumbo coin
- 1 special ring
- 1 special metal part for normal coins
