## **FANtast by Po-Cheng Lai - DVD**

It is seldom that one sees a piece combining "elegance" and "power," but in Po-Cheng's fan routine, these two elements are perfectly intertwined together.

Modern magic has already surpassed the "classics" of stage magic through competitors in recent magic conventions. More diversified categories have emerged, besides the typical cards and balls. This is an interesting phenomenon, but these non-mainstreamed categories are challenging for beginners. As a result, there are fewer masters in these categories, and effective training systems have not yet been established.

However, Po-Cheng's fan routine keeps shining on the international stage, and he establishes his "fan manipulation" systems.

Do you want to create unbelievable illusions by using fans? Then do not miss this DVD - **FANtast!**
