## **Ultra Torch to Cane 2.0 (E.I.S.) by Bond Lee & ZF Magic**

We upgraded our ultra torch to another level! Introducing **E.I.S. Electronic Ignition System**. Now you can ignite your torch whenever you want without set up. All you need to do is press the button -- the fire then ignites.

We also provide a feather set allowing you to do this amazing effect when fire is not available for your venue.

- Easy to use
- Reliable
- Visual stage magic
