## **Foo Can (Brass) by Mr. Magic**

This utility item has so many surprising uses. Pour some water in the can from a large jug. Then apparently pour water from the can into a cone made out of newspaper and then suddenly flick the newspaper open! The water is found to have vanished! You can use the item for the 'Anti-gravity' effect. With a little thought, you can use it for additional comedy effects at children's shows! So much magic from one clever item!
