## **Color Changing Wand by Mr. Magic**

Hold a brightly-colored magic wand (with gold tips) in your hand, and use it during your show. Either point at an object, or wave it in the air -- whatever looks magical to enhance the moment.

Suddenly, the wand changes from being brightly colored to being a black wand with golden tips. Where did the color go? It's magic!

Your audience will be stunned by this amazing color change, instantly conveying that you are, indeed, a real magician!
