
HOLD UP Red by Sebastien Calbry

A classic hit that will blow your mind!

A card changes and the card magically rises!

2 tricks in 1!

Guaranteed success!

Sebastien Calbry's creativity, associated with professional magician Thibault Surest's high standards, both led to the creation of this pure jewel.

A ridiculously simple gimmick linked with a devilish technique.

All you need is to see your spectators' reactions when they see a card rising in the air, between 2 other cards, and slowly change!

The trick can be mastered in no time, regardless of your level. You have complete control of your gimmick, allowing you to manage your card's ascent all while enjoying your audience's amazement as they witness the card change right before their eyes.
