## **Hopping Cube by Takamiz Usui & Syouma**

Here's an effect where a Rubik's Cube multiplies and vanishes! And, this can be repeated several times! It opens the door to the new possibilities for the Rubik's Cube!

This gimmick can help during times that would normally cause suspicion - the gimmick's composition covers those moments of weakness!

Please enjoy this effect, where the tempo can increase as the trick proceeds, leaving your audience astounded!

Comes complete with necessary tools and online video instructions.
