NOW! iPhone Version (Online Instructions) by Mariano Goni Magic - Zaubertrick mit Phone und App

NOW! is the one of the most technologically advanced products on the magic market today.

Borrow ANY smartphone. Ask the spectator to open their browser. They hand THEIR phone to you and you look up an image online.

You find the image and hand back their phone face down. You NEVER TOUCH THEIR PHONE AGAIN!

Ask your spectator to think of ANYTHING. That's right... ANYTHING.

And their thought is NEVER spoken out loud.

Finally, you ask them to turn over their phone... It is the EXACT image they had in THEIR MIND.

YOU do NOT type anything in your phone. NO stooges, NO listening devices, NO peeking at screens, NO fishing, NO questions are asked.

NOW! does ALL the work for you! Works automatically and in real time.

- NO accomplice needed.
- Never touch your phone to control information.
- NO audio recognition.
- NO NFC or RFC chips.
- Absolutely free choice, NO forcing giving you unlimited choices.
- Spectator only points at the object or picture and NEVER names it.
- Instantly repeatable.
- Ends completely clean, NO traces left.
- Works with most browsers.
- Endless customization options.
- Predict images, Amazon products, dictionary words and even videos.
- Easy to do with the app, mobile phone, pen and paper.

iPhone/Android App: With this magic app, you will amaze your spectators WITHOUT the need of an accomplice or touching your mobile.

Predict ANYTHING, ANYWHERE with this highly customizable application.
