
Limited Edition Rocket by Pure Imagination Projects - Pokerdeck

LIMITED EDITION: Only 2500 printed! Will NOT be reprinted.

All systems go - we're ready for take off. Journey through an unknown realm using the stars as your guide as we launch our rocket to the moon.

Inspired by the endless reach of space and time, **Rocket Playing Cards** is the newest addition to the PIP lineup. Designed by Jonathan Schubert of The Schubert Studio (designer of Livingstone and Lonestar Playing Cards), **Rocket Playing Cards** blends classic playing card designs with the imaginative creations of Mr. Schubert.

Created under the strict guidance of the PIP team, we have made sure the cards feel just as good as they look. We've kept our classic crushed Bee stock - that thin and snappy feel you know and love in all PIP decks - and housed the cards in a super clean tuck case.

Limited to 2500 decks, you surely don't want to miss this.
