
Ghost Card by Fraser Parker

GHOST CARD is a gimmick from the mind of Fraser Parker. It allows you to obtain a peek of information written or drawn on a playing card **AFTER** it has been shuffled and lost in the deck!

You will be able to show the bottom card of the deck to your spectators as proof that their thought-of card truly is locked away and hidden from view within the shuffled deck and, yet, you will always be able to obtain a clear peek of their written information.

This is an entirely new concept from the ingenious mind of Fraser Parker and is something you will smile at, once you know its diabolical secret!

You will receive two custom made gimmicks of the 4 of Spades that can be added to any standard Poker size deck. (Only one of the gimmicks is needed for a performance. You receive the other gimmick as a spare. These will last many performances if looked after.)

Full download instructions are provided plus video performance from Fraser and Peter Turner.
