
Syouma Silk (Green) by Tejinaya Magic

Here's a beautiful, thin Japanese silk with a known, common handkerchief pattern printed on it.

This makes it different from conventional magic silks, as the known pattern makes unnaturalness and suspicion disappear. It is the best silk to use for normal table magic. For those who have shunned silk magic until now, this is recommended for you!

There are four colors: navy, wine red, yellow and green. Please choose one. Or more, if you'd like!

Size: 45 cm x 45 cm
