
P&L Aluminum Lota Bowl

This is a close-up version of this classic effect -- holds six shots of liquid. After picking it up and pouring all the liquid into a cup until there is not one more drop in the lota, the magician returns a few minutes later to once again pour yet another drink!!!! But how can this be possible? In fact, the magician repeats this five times to the amazement of the audience.

Great as a comedy effect, too! When used in that manner, the audience howls in laughter!

A quality made Petrie-Lewis (P&L) prop, manufactured to last a lifetime.
