
Vortex Magic Presents Intuitive Destination by Philip Ryan - (Invisible Deck Postcards)

Philip Ryan has been performing his postcard routine for many years. In this version, you show the spectator a list of 30 countries -they have a COMPLETELY FREE CHOICE of any country. You then fan the postcards showing that their choice is the ONLY ONE FACE DOWN in the packet. The spectator can pull out the card and they will see it is theirs. The great thing about this is that they can change their mind at any time and their final choice will be the one face down amongst the face up postcards.

NO FORCE
FREE CHOICE of any 30 different countries
EASY TO DO

This can be performed on stage or close-up and completely surrounded.

There are MANY different ways to use these postcards. If used in combination with Philip Ryan's DESTINATION (Svengali postcards that made to match), then you have an amazing series of routines -- you can perform with both stacks.

Comes complete with:
