
NEW FLYING SPHERE (With Remote) by Sorcier Magic

Probably the lightest flying ball on the magic market. It lights up!

This light sphere turns on and off at your command. Prepare to levitate it near a semi-transparent scarf, behind it, and in front of it. The audience will not have a clue as to the explanation - it looks like real magic!

For stage magic, this sphere will make your performance enchanting. When it lights up, it is a glowing white - it looks beautiful! Provided with the high quality, semi-transparent, gold scarf.

The sphere measures 10 centimeters in diameter, with remote control. Easy to use.

Batteries are required (not included).

Video instructions accompany this marvelous miracle of magic.
