Join Michael, and his on-screen host Andy Smith, as they delve into fascinating subjects such as timing, misdirection, audience control, character and presentation. There are also in-depth conversations about the material covered, such as...

Sky Hooks - The CLEANEST vanish of three coins you could ever hope for.

Synergy - Michael's preferred and updated handling of Kismet (one of Michael's most talked about effects).

The Changeling - A most beautiful transformation of a playing card.

Tipsy "T" with a Bonus - After 30 years, Michael has arrived at a perfect interpretation of Triumph.

A Marlo Classic - Marlo's approach to the famous Biddle Trick.

Pandora's Paradox - A new finesse on Michael's classic routine featuring The Vincent Card Fold.

Pasteboard Larceny - An idea started with great ideas by Steve Forte and Jason England. A powerhouse of ideas to make this routine an almost perfect demonstration of super human skill when cheating at cards.

The Lie Detector - This may be the GEM of this DVD. A classic plot featuring ideas by Ed Marlo, Larry Jennings, Alex Elmsley and others. A routine worth its weight in GOLD!

Michael is a world class performer and an expert in sleight of hand and creating a rapport with his audiences. This is a conversation that will challenge you as a

performer but will ultimately help you to enhance your performing skills and your approach to magic. The material is diverse in both method and plot but contains something for everyone (no matter what your skill level). **Synergy** is a discussion of ideas that, when combined, can produce an effect (on your audiences) greater than the sum of its parts. This is one DVD that no magician could afford to be without and comes highly recommended.
