## **RSVP BOX HERO (Dark Night) by Matthew Wright**

Remove, Switch Vanish or Produce...the **RSVP HERO** allows you to do it all.

RSVP Box is an amazing utility tool that can make any small object appear, vanish, and transform into another item. Here's an absolute classic of magic reinvented for the modern performer. Available in three different eye-catching finishes, this solid aluminum box is extremely simple to use and comes with many routines suitable for walk around, close-up, parlor, and stage, including a variation of Matthew's own stage routine.

With routines including cards, rings and money, RSVP Box really is suitable for all occasions. With over two hours of detailed instructions, no stone is left unturned. The box comes supplied with a specially gimmicked "under-cover" carry bag that allows for some never-before-possible "in the open" switches. The box is magnetically locking and can be handled by the spectator, who is also able to remove the object from inside the box themselves. No more need for funny switches and moves at the climax of the routine -- the item in the box really is the item.

Each RSVP comes complete with box, stylish black padlock and gimmicked undercover bag.

Dark Knight is a strong solid aluminum box, powder coated with a fashionable "gun metal grey" finish.

Silver Samurai is an attractive polished aluminum box with signs of natural aging for an authentic antique silver look.

Magneto has a stainless steel powder coated finish added to a strong solid aluminum body.

With download instructions following on from the original plastic RSVP Box plus bonus handlings, the **RSVP HERO** is the go-to locking box for the professional performer.

Padlock not included.
