
RETRIEVE by Smagic Productions

RETRIEVE is an extraordinary and unusual effect! Incredible visual magic!

Your spectators won't believe their eyes!

From Smagic, we bring you a new and exciting concept in magic. With a TAP, you can make an object appear right in front of your spectator's eyes - instant and amazingly visual. This effect was created for walk around and professional magicians. Produce a card corner, a coin, a bill, candy, even a butterfly with no angles to worry about. Perform with confidence! You'll enjoy performing this as much as your spectators will love being mystified by it!

This is **RETRIEVE** - check it out!
