## Memento Mori Invisible Deck

The #1 selling custom playing cards, Memento Mori, is now available as Invisible Decks!

Incredibly EASY TO DO --but oh so powerful, the new **Memento Mori Invisible Decks** will allow you to perform magic that has been on national TV... *but with your own unique style.*

Ask a spectator to THINK of ANY card in the deck. Totally FREE choice.

Pull out a deck of cards, and ask them to name the card they merely IMAGINED.

As you spread out the cards face up... ONE and only one card is face down.

The spectator pulls out the card, and incredibly it is the EXACT same card they thought of just moments before.

**Quick, easy, and you get it right EVERY time.** Perfect for beginners or anyone who wants great reactions.

Now one of the world's greatest card effects is available with the signature, low-poly skull design of Memento Mori playing cards.

From the philosophical to the artistic, the fascination, fear and appreciation of death and skulls has consistently captivated and cultivated our imagination. Many practitioners of this theory kept artifacts or keepsakes with them, which served as a reminder that the only thing certain in life, is death.

Astound everyone with the **Memento Mori Invisible Deck.**
