## **OOPS Just Cards by Paul Hallas - Buch**

**OOPS Just Cards** contains over 40 card tricks that amuse, amaze and cause jaws to drop! It always entertains, as the author (a professional entertainer) puts his own spin not only on classic plots, but on some that are more obscure.

*"Love your take on my 'Eight of Diamonds Trick' and 'Diminishing Not Likely.'"*  
**- Paul Gordon**

*"Another useful collection. I was doing the card stab the same day."*  
**- Jack Jansen**

*"My personal favorites are, 'Buddha's Card to Wallet,' 'Like Clockwork,' 'Here, There and in the Air,' and 'The Imaginary Card.'"*  
**- Joseph Kovaks**

*"I particularly liked, 'That's Definitely It,' 'Out of Sight, In My Mind,' and 'Tucker Time.'"*  
**- John Howtowka**

Please note, this material is NOT intended for the complete beginner in magic but rather other professional magicians and serious hobbyists who perform card magic already.
