## **CROSS CHOICE by Magie Climax**

With **CROSS CHOICE**, you can control and predict your spectator's choice! **CROSS CHOICE** is the perfect finale to the classic effect from Ali Bongo, "Bongo's Big Balloon Burst".

### **The effect:**

You ask your spectator to freely select a balloon among five balloons of different colors. His choice is completely free. Then, you ask him to inflate the selected balloon, for example the yellow.

Since the beginning, you have had, in full view, an envelope containing a prediction: a sheet of paper placed on a clipboard that protrudes from the envelope (no switches of any kind).

You explain that five balloons are drawn on this sheet of paper. But you specify that on ONE single balloon, you drew a cross with a big marker. You remove the clipboard from the envelope and, with no suspicious moves, a cross is shown on the drawing of the selected balloon!

So simple and so strong!

You will also receive a drawing with ESP cards. With it, you can perform the same effect: one ESP card is selected among five. On the clipboard, the selected one has a cross on it!

You can also customize your **CROSS CHOICE** with super heroes, fruits and vegetables, trades, circus characters.

### **CROSS CHOICE come complete with:**

- A clipboard A3 size and its envelope (42 x 29.7cm)
- The drawing with balloons - A3 size - printed on plastic
- The drawing with ESP cards - A3 size - printed on plastic
