## Limited Edition Harmonic - Pokerdeck

**Harmonic Playing Cards** is inspired by ripples seen in water. This deck uses abstract methods to portray the waves at the moment when a water droplet falls into the water and produces layers of waves. The colorful card backs shine like the sun's reflection on the ripples.

The water and the colors of the cards use simple lines to make them more concise and clean. A colorful and calming effect, and beautiful for cardistry moves and fans!
