## Bicycle Syndicate - Pokerdeck

For a creation to work, the pieces must fit. This is the case of great teamwork and this is the inspiration of **BICYCLE SYNDICATE**: parts and gears in perfect harmony to create beauty.

GAMBLER'S WAREHOUSE is proud to present this new deck, the result of a fantastic collaboration between two passionate playing cards designers: SHAPE-SHIFTERS and MAX PLAYING CARDS.

The best of both worlds has been combined in this deck full of positive energy. The meticulous details and the metallic and shiny textures make **BICYCLE SYNDICATE** an elegant and intricate, yet very clean, deck.

For the designs, different graphic techniques in 2D and 3D have been combined. Thus, the tuck case and back look like work of a goldsmith.

The back represents an elaborate structure where metals are combined with precious gems and mechanisms that seem to hide a real treasure.

Card faces, on a white background, keep a perfect neatness for magic routines or table top games. Pips on numbered cards look like jewelry and fit with the elaborate aesthetics of four huge and beautiful Aces.

The Court cards, completely customized, follow a traditional scheme which guarantee their playability for any poker game.

Jokers represent day and night, an allegory of the tireless work of those who, with their talent, strive to create beauty and turn it into magnificent decks like this one.
