
Ninja+ Deluxe CHROME BLACK by Matthew Garrett

These rings are of the highest quality. The amazing chrome black finish is a color between traditional silver and dark matte black.

This chrome black finish is shiny and is our favorite finish. The plating is of the highest quality and does not chip and is very hard wearing.

"Holyshoot! Matthew has created a new and original trick. It works great both with ninja rings and on its own."

- Shoot Ogawa, Ninja Rings Master

The explanations are clear and easy to follow. There are basic moves and a beginner's routine so you can quickly and easily perform this effect.

There are also more advanced flourishes, moves and an advanced routine for sleight-of-hand workers.

You receive everything you need to make this effect possible.

The large rings are 4 1/2" (11.5cm) in diameter and are black chrome plated.

The smaller rings are a high quality black and silver tungsten carbide. (NOTE: Size of boxed finger ring prop will vary, and choice of size is not available.)

With this set you receive online video instructions for Volumes 1,2,3 & 4 (English).
