
FIT by Paul Carnazzo

Performed by Chris James

Imagine borrowing a coin and a ring and asking one of your spectators to push the coin through the ring...they can verify for themselves - the coin **DOES NOT FIT** through the ring.

With just a little imagination, the performer defies physics and **visually pushes the coin through the ring** directly in front of the spectators' faces!

This is a stunningly visual penetration of solid metal through solid metal.

The coin and ring can be immediately returned to the spectator who can again verify that the coin **DOES NOT FIT** through the ring.

FIT includes a gimmicked quarter and a gimmicked nickel to fit a variety of finger rings. With these two coins you can use finger rings ranging from women's size 5 to men's size 12 1/2.

Some sleight of hand required to perform as shown in the video.

SKILL LEVEL: INTERMEDIATE
