## **Cina - Pokerdeck**

This deck will produce looks of fascination.

**Cina Playing Cards** is a completely redesigned deck of playing cards with collaborative art by our talented friend, Michael Cina. The illustrations on the cards have been redone; from the tuck case to every symbol, court card and even the typography.

It has beautifully colored card backs and tuck case. In addition, the red colored pips for Diamonds and Hearts form an intriguing contrast with the black design, particularly with the court cards.
