
Diamon N° 5 Winter Warmth by Dutch Card House Company - Pokerdeck

This deck is the second installment to a playing card project created by Artedame Dutch Design Studio in collaboration with Bocopo Playing Cards Company and several cardists and magicians.

For this winter's release, we came up with an eye-catching deck that features a unique diamond pattern like N° 2 of last summer. With shades of cherry wine red and buttery yellow, the colors complement one another and fuse to create a unique pattern. This harmonious composition awakes the sense of a warm winter, thus: "**Winter Warmth.**"

We wanted to continue the trend of assembling diamonds together in such a way that it creates a geometrically pleasing pattern with vivid colors that pop when fanned, flourished, and dealt. Cardists will be thrilled with the results!

This time around, we decided to change the index to the traditional font to make it easier to play with. We continued to go with USPCC's quality to ensure that the cards are top-class. This guarantees that N° 5 will be even better than the previous version, N° 2.

Details:

- 52 custom playing cards + Jokers
- Gaff and ad card
- Printed by the USPCC on the iconic Bicycle stock with Linoid finish
- Crushed paper stock
- Traditional cut
- Limited quantity available
