
BIGBLINDMEDIA Presents Boris Wild's Sensations (2 DVD Set) - DVD

Bigblindmedia presents

Boris Wild's Sensations

Includes Winner of 'TRICK OF THE YEAR' at TRICS 2017 - 'PURACAAN'

You like magic when it is simple, direct, and effective? You like to be fooled by impossible effects that leave a strong impact on the audience? You like routines that make your spectators feel a magical emotion? Then Boris Wild's **SENSATIONS** is made for you!

"Great lecture. One of the best we've had!"

- Marvin Berglas, Vice-President of The Magic Circle

SENSATIONS will allow you to perform incredibly clean predictions and coincidences that are absolutely impossible. You will even be able to find a chosen card whilst blindfolded and to influence a spectator so he always selects the cards **you want**.

Discover Boris Wild's **best** routines from his critically-acclaimed lecture **SENSATIONS** on this unique 2-disc set (which features over **THREE** hours of material).

- **10 MAX** - A new take on the classic Ten-Card Poker Deal based on a Paul Gordon principle. A routine involving money that will fool even the most demanding spectators, (as well as other magicians)! The best part is you can adapt the routine with all different themes: mentalism, divination, poetic effect and even tricks for children...
- **Blind - 5 Senses Version** - A tour de force where the magician performs a card effect while being blindfolded from the beginning to the end! Finally, after using his five senses, the magician finds the card folded in his mouth in the most impossible way.
- **Blind - Borrowed Deck Version** - It is basically the Blind effect but even stronger because it is performed with a borrowed deck and it ends up with a spectacular revelation, still blindfolded! An effect that fooled many

-
- experts at the FFFF Convention.
- **Show-Off** - Starting from the original concept of the ambitious card where "a chosen card stands out among the others", Boris has devised a new generation ambitious card routine in which a chosen card does not jump to the top but continuously turns over inside the deck. Each time in a more impossible and visual way until a totally unexpected ending!
 - **iPOP** - This is the impromptu handling with a borrowed deck of one of Boris Wild's pet routines: POP (Perfect Open Prediction). You can now perform it anywhere at any time. After making your open prediction, the spectator deals the cards face up, one by one, and stops whenever she wants. She places the next card face down and keeps dealing the remaining cards face up until the very last one. The deck is spread: the card that the spectator reversed is your prediction!
 - **Symbiosis** - An incredible effect combining prediction and coincidence with two borrowed decks. The perfect routine for the finale of your parlor show or a wedding gig.
 - **PURACAAN - Winner of 'TRICK OF THE YEAR' at TRICS 2017** - An extremely pure ACAAN effect designed for close-up conditions with a regular deck that can be borrowed and shuffled by the spectator. Any card and any number can be named. A version that will fool and amaze even the most knowledgeable spectators.

Running Time 3hrs 8mins

"First class lecture."
