
Limited Edition Untitled by Adam Borderline - Pokerdeck

Untitled Playing Cards represents the fluid nature of our art. A distinct color palette, within different shapes, leads you into the abstract world.

The Cards:

Printed by the USPCC using their premium crushed stock, traditionally cut. Custom one-way design, Jokers, and Ace of Spades. Spade pips altered at random to include the back design for a striking contrast. Limited edition of 2,500. No reprints -- once they're gone, that's it.

"I've always had a fascination with abstract art, it's raw and unconventional. I really wanted to portray that in this deck. **Untitled Playing Cards** offers a freedom from constraint, pursue your creativity."

- **Adam Borderline**
