
Alien Mind Reading by Mariano Goñi

From the creator of Defiance and Coffee Cup comes the most Direct Mentalism Device.

Alien Mind Reading runs on your browser, always updated! The spectator only needs a browser with internet (any device).

Access the system from your phone with internet.

It comes with a very special electronic gimmick.

Several mentalism effects can be performed with this tool.

Imagine...

Instantly know what image your spectator is searching for on THEIR phone without touching it or peeking at ANY form of visual cue.

Spectator uses THEIR phone. Spectator looks up ANY Item they can think of.

100 % REAL claims:

- You never touch their phone
- You never peek at your phone (or any other visual cue)
- No forces, they can search any word
- Instantly repeatable without doing anything. No reset
- No memory work, earpieces, no thumpers
- Your phone can be face down on the table
- Ready in seconds, no pre-show
- No accomplice, perform alone
- No voice recognition
- Lots of languages supported

Thought is transmitted directly to you or your spectator's head without any screens, text, earpieces, speakers, codes, etc.

Totally silent transmitter. YOU choose who will receive the secret information. You do not speak or whisper ANY information.

The AMR (**Alien Mind Reader**) does all the work for you.

- As an "out" you have a visual option.

"Implant a thought" into a spectator. Another spectator reads the first spectators mind!

UPDATE

Now with 4 added functions/effects, with NO assistant or help required. A full mental routine at your disposal!

- 1) Famous Actors: Read their mind on any Google selected celebrity, then PREDICT which one they are thinking of - without touching their phone!
- 2) Phone Number: Finale number one, get their phone number and call them!
- 3) Sketchpad: Instantly duplicate any drawing the spectator makes on Google draw!
- 4) Analog Clock Prediction: A randomly selected clock from one spectator's Google, matches the hour and minute freely chosen by another one.

Device comes pre-charged with rechargeable battery via USB.

Use your computer to charge.
