## Paradox - Pokerdeck

Here are the rules: *Ignore all rules with **Paradox Playing Cards**.*

The midnight black backs of **Paradox Playing Cards** contrast with the mystical, blue-dotted swirling circles, suggesting chaos -- yet every line is meticulously placed in defined order.

You will be drawn to the look and feel of this deck.

The Joker playfully plays off of the **Paradox** theme by using a ? (question mark) as the pips.

The tuck is adorned by an intricate red-and-white custom seal.

The court cards carry over the vibrant blue and gold from the backs.
