
Magic On Demand & FlatCap Productions Proudly Present: Expert At The Chard Table by Daniel Chard - DVD

On this project, you will learn hard-hitting commercial magic direct from Daniel's working repertoire. These routines can be used close-up and in parlor performances.

All of the material is within reach of a beginner with basic knowledge of card magic.

"Daniel Chard is a master of technique and entertaining to boot. One of my favorite bar magicians to watch."

- Kieron Johnson, creator of Remaxed Isolation and To The Max

DVD Contents

Introduction:

3-2-1 Dunbury: A reworking of the Dunbury Delusion with a surprise finish. Inspired by John Carey and Gary Jones.

Business Card Collectors: An in-the-hands Collectors routine that leaves your spectators with your business card.

Bank Change: One selected card appears printed on a bank card. The writing is then transformed to reveal a second selection. Inspired by Kieron Johnson.

Streamlined Decompression: A hyper-visual splitting routine.

Vertical Hypno: A pseudo hypnosis routine in which a court card visually changes to a selected card and back again. Pure eye candy!

Your Name, My Business: A gag, a visual transformation, and a great giveaway. A real worker that leaves the spectator with your contact information.

BONUS FEATURES

Backfire Sandwich: A two-phased sandwich routine with a kick-back ending.

Vertical Lie Detector: A commercial Lie Detector effect. A selected card is found under impossible circumstances and as a kicker, you produce the mates of the selection. Inspired by Aldo Colombini.

(Multiple Selection Routine) Revelation: A masterclass on a routine that Daniel has performed thousands of times. The control sequence, numerous hard-hitting revelations, and the psychology all come together to make this effect a true powerhouse.

Revelation by Andi Gladwin: An unpublished bonus idea that allows you to add another kicker to the routine. This alone is worth the price of the project and has gotten me higher tips and more gigs.
