
Hoodie Catches by SMagic

The Holy Grail in Card Stabbing effects!

Hoodie Catches is the modern approach to the Card Stab effect, using an everyday hoodie. The spectator signs a card, which subsequently gets lost inside the deck. You now wrap a string from your favorite hoodie - the modern version of a sword - around the deck. Holding the hoodie string, you now pull it apart to create a beautiful card blossom effect in the air with only one signed card stabbed through its back! That's slick! It's so practical and so strong that the effect never fails to excite audiences. Imagine a finale for your card act that packs small and plays big for an entire roomful of people.

Welcome to **Hoodie Catches**. Get it now!
