## **Instant Memorized Deck by Woody Aragon - DVD**

The **Instant Memorized Deck** is a new concept that is sure to excite card magicians. It begins with a borrowed, shuffled deck. Through a series of clever principles and a thoughtful selection of material, you slowly and secretly put the deck into an order that allows you to do **MIRACLES**. You can simulate tricks only possible with a memorized deck, without actually memorizing a deck!

This is an entirely new approach and concept in card magic, and one that opens up many possibilities for stack work... without a stack.

The routines require no difficult sleights and are easy to remember and perform. Plots include Poker demonstrations, mentalism, prediction effects, and stunning impossibilities. You'll learn:

**4 Card Prediction** - From a borrowed, shuffled deck, the magician removes two prediction cards. The spectator then removes two cards in the fairest possible manner... and these two cards match the predictions.

**Weighing the Cards** - In this classic, the spectator cuts off any packet of cards and the magician instantly knows how the number of cards cut.

**Name Any Card** - The magician knows the exact position of any card the spectator names.

**Memory Exhibition** - The spectator chooses any card and moves it to any other position in the pack while the magician's back is turned. With just a gaze at the new order, the magician can pinpoint the spectator's chosen card and where it is.

**C.A.A.N.** - A selected card goes to any position called for.

**Instant Poker** - This is a highly entertaining and multi-phased Poker routine.

DVD. Running time: 1 hours 23 mins.
