
Wilting Magic Wand by Strixmagic

A hilarious and brilliant alternative to the classic Breakaway Wand!!

The beauty of this magic wand is that, even though it is gimmicked, you can safely show it and use it as a normal magic wand to perform all your magic!

The **Wilting Magic Wand** will add comedy and laughter to your show!

It's suitable for all occasions, indispensable for comedy magic, family shows or kids' shows. What a great tool to keep with your magic gear!

Presentation:

Use your **Wilting Magic Wand** safely during your show.

Call a spectator or child to assist you. Tell them you are about to perform extraordinary magic and you'll require your magic wand for this amazing effect.

The wand will, at first, be rigid -- even in the spectator's hands.

Once the spectator raises the wand to the sky, the wand will DROOP halfway, refusing to do magic! Laughter and general hilarity will surely ensue! At kids' shows, they holler with laughter!

Take the wand and make it normal again. Shake it in the air, wave it horizontally, raise it vertically, it seems to be back in place. Give the wand to the spectator. Once again when they raise it, the wand will wilt again! Even funnier the second time!

- No external gimmicks, nothing to palm, nothing to pull or push
- Self-contained
- Get an elegant 47 cm long, high-quality wand that is specially made for this effect
- Wood and aluminum, individually handmade in Italy
