
Magic Soul Presents **Stungum** by Johnny Kang

Many gum tricks have been sweeping the magic scene lately, and **Stungum** is definitely the leader of the pack! With this trick, not only can you conjure up sticks of gum from thin air, but all sorts of strange things might appear and disappear from your handy handmade gum pack. The only limit is your imagination! What makes **Stungum** so different is that you remove the last piece of gum from the pack in front of your audience, and then immediately refill the pack magically. Of course, all can be handed to the audience to examine.

In the teaching portion of the DVD, Johnny Kang takes you step-by-step through an easy and clean prop creation process. Use whichever brand of gum you like, and fill the pack with whatever you want, to create a **Stungum** trick that's entirely your own!

Special features:

1. Speedy setup
2. Simple performance
3. Flawless finish - When the trick is over, hand the pack over to your audience for inspection (and taste-testing)!

Order your **Stungum** and begin amazing others right away!
