
In a Flash (Blue) DVD and Gimmicks by Felix Bodden

A transposition is one of the most powerful and notable effects in all of magic. Its uniqueness is so prominent that noted author, Dariel Fitzkee, referred to it as one of the fundamental effects. From being featured in acts around the world, and even in Hollywood films, a transposition is a worthwhile addition to any repertoire. But usually, the methods for these effects are cumbersome and often call for elaborate special props.

With **In a Flash**, your troubles are over. Imagine a simple, powerful, visual transposition of 2 cards that occurs right in front of your spectator's eyes. Especially powerful, because part of the transposition happens in a card box that they are holding in their own hands! It's easy to do, easy to reset, and ready to go whenever you're ready to blow some minds.

You will receive the following:

- 1 **In A Flash** instructional DVD
- 1 completed gimmick (red or blue)

The gimmick cover must match the color of your deck.

TV rights not included. Please contact us for TV inquiries.
