
Drop Down Mirror Box (Small/Black) by Ickle Pickle

Want to amaze your audience by producing something in an incredibly magical way?

The most beautiful box we've ever offered! This is a SMALL, black lacquered, production box with two doors in the front. The entire lid opens too! Show the box empty, briefly close the doors, then lift the lid and open the doors to show a live rabbit (or whatever else you choose)!

The best part is that the whole interior is open, exposed, and "clean"! You will love performing this for every type of show!
