
Mondrian: Broadway - Pokerdeck

Mondrian: Broadway, our newest rendition in the Mondrian series. Based on Piet Mondrian's artwork titled "Broadway Boogie Woogie," completed in 1943.

The Broadways have been completely redesigned from the ground up.

The Box:

Done in a super thick, synthetic, soft touch stock with 4 Pantone colors, each individually letterpressed. This gives each color a dimensional feel. Piet Mondrian's signature is silver foiled along with other elegant silver foil details on the outside. The inside of the box is completely foiled with the Broadway design.

The Cards:

The cards are printed on a crushed premium stock that is thin yet snappy. Perfect for cardists and magicians alike. The design was created to flow with your flourishes and accentuate the moves. The primary colors are bright and eye-catching, while the subtle cool grey allows for subtle borders. The Ace is done in the Broadway design, and the signature colors are used throughout the court cards. The extra cards included are two Jokers, a double backer, and a blank face.
