
Travelling Deck Card Version Red by Takel

Now available for purchase - **Travelling Deck Card Version**

Hold a pack of cards in your hand. Instantly, right in front of your spectator, the **whole deck** disappears leaving you with just one, single card - their signed and selected card!

Imagine the scene - you take a pack of cards out of a card box. Then the entire deck vanishes with the exception of one card. You explain to the spectator that the deck has gone back inside the card box. You go back to the card box and take out the pack of cards - amazing!

This is one of many routines that are possible with the **Travelling Deck** gimmick.

Each gimmick is custom made, by hand.

Online instructions explain a range of possible **Travelling Deck** routines; for example, change a deck of cards into a currency note or a 52 on 1 card. We explain how to modify and repair your gimmick if necessary. Also included in the video are four complete routines, as well as a host of ideas and suggestions.

You will find it hard to put the **Travelling Deck** down. It's fun to perform, and audience reactions are just out of this world!

No pulls, Topits or difficult sleights.

The perfect opening for any table hopper.

Online instructions and ready-made gimmick supplied.
